

A5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATION SERVICE-COIN AND COINLESS (Cont'd)

5.5.5 NETWORK CONTROLLED COIN ARRANGEMENT (NCCA)

\*\*  
\*

A. DESCRIPTION

Network Controlled Coin Arrangement (NCCA) is a central office, message rate service available to Public Pay Telephone customers who are served by a capable Central Office (CO) where adequate facilities are available. It consists of CO-based control and switching equipment, which when used in connection with customer-provided pay telephone stations, offers access to the exchange network.

The type of facilities which connect a customer's Pay Telephone Station to the central office are described as follows:

NCCA - Unrestricted - an arrangement that has no restrictions on either incoming or outgoing calls.

NCCA - Outward Only - an arrangement that allows only outgoing calls.

NCCA is equipped with coin control capability which includes coin collect and return features, call rating capabilities, and unique operator services which allow an end user to signal the operator by a momentary flash of the switch-hook during a call.

NCCA has an incoming screening arrangement which prevents the completion of collect or third number calls to the NCCA pay telephone. NCCA also has an outgoing screening arrangement where originating, operator-handled calls are restricted to collect, third number, and calling card only.

\*  
\*\*

#### A5. EXCHANGE SERVICES

##### 5.5.5 NETWORK CONTROLLED COIN ARRANGEMENT (NCCA) (Cont'd)

\*\*  
\*

###### B. REGULATIONS

Local messages for NCCA will be billed on a flat rate basis for an interim period of time, until it is technically feasible to bill on a message rate basis. At that time, all NCCA billing on a flat rate basis will be converted to bill on a message rate basis.

Connection of more than one telephone to a single NCCA will be permitted, but is limited to those locations where NCCAs are associated with common equipment dedicated solely to NCCA and arranged so as to ensure user privacy and provide no inordinate levels of call blocking.

The discount provisions of A2.3.4 are not applicable.

A directory listing is available with each NCCA. NCCA - Outward Only customers must subscribe to non-published directory listing service and pay the appropriate charge as specified in A5.7.1,D for each service location.

Touch-Tone calling, as specified in A5.4.2, is available on an optional basis.

700 only, 900 only, or 700/900 blocking as specified in A10.4.3, is available on an optional basis.

NCCA is subject to the resale regulations outlined in A2.2.5.

###### 1. Responsibility of the Customer

The customer shall be responsible for the installation, operation and maintenance of any pay telephone used in connection with this service.

The customer shall be responsible for payment of all charges associated with this service including applicable local, toll and FCC charges. Adjustments to the customer's local message and/or toll bill will not be made.

NCCA pay telephones must be registered in compliance with Part 68 of the FCC's Code of Regulations.

NCCA pay telephones must comply with all applicable federal, state and local laws and regulations concerning the use of these telephones by disabled persons and the hearing impaired.

\*

B. REGULATIONS (Cont'd)

2. Required Operational Characteristics:

- Must be able to access an operator (dial-0) at no charge and without using a coin.
- Must be able to dial 0 (operator) plus the appropriate number of digits for Calling Card, Collect and Third Number calls at no charge and without using a coin.
- Must be able to access 911 Emergency Service, where available, at no charge and without using a coin.
- Must be able to access all interexchange carriers, where available.
- Must be able to access Toll Free numbers, 950 Interexchange Carrier numbers, and Interexchange Carriers at no charge and without using a coin.
- Must allow the completion of both local and long distance calls.
- The customer shall cause to be prominently displayed on each customer-provided pay telephone used in connection with this service clear and concise dialing instructions. Refund and station ownership information must be provided to NCCA pay telephone end users, but, at the option of the NCCA pay telephone provider, may be either posted at the station set or available via a free information number. In addition, the source for obtaining refunds must be a party within the State of New Jersey.

3. NCCA - Outward Only

NCCA customers may prevent incoming calls, but when doing so must conspicuously post notice of the pay telephone's inability to accept incoming calls on or within close proximity of the NCCA station set.

4. Violation of Regulations

Failure of the customer to comply with the provisions of this Tariff will result in the suspension of the customer's service.

A5. EXCHANGE SERVICES

5.5.6 NETWORK CONTROLLED NON-COIN ARRANGEMENT (NCNA)

\*\*  
\*

A. DESCRIPTION

Network Controlled Non-Coin Arrangement (NCNA) is a central office message rate service available to Public Pay Telephone customers who are served by a capable Central Office (CO) where adequate facilities are available. It consists of CO-based control and switching equipment, which when used in connection with customer-provided non-coin/coinless operated pay telephone stations, (including card reader or credit card telephones) offers access to the exchange network.

The type of facilities which connect a customer's Pay Telephone Station to the central office are described as follows:

NCNA - Unrestricted - an arrangement that has no restrictions on either incoming or outgoing calls.

NCNA - Outward Only - an arrangement that allows only outgoing calls.

NCNA has an incoming screening arrangement which prevents the completion of collect or third number calls to the NCNA pay telephone.

NCNA has an outgoing screening arrangement where all calls are restricted to Special Assistance Charge Messages.

NCNA has an outward call blocking arrangement which prevents the completion of chargeable Direct Distance Dialed (DDD) calls.

B. REGULATIONS

Connection of more than one telephone to a single NCNA will be permitted, but is limited to those locations where NCNAs are associated with common equipment dedicated solely to NCNA and arranged so as to ensure user privacy and provide no inordinate levels of call blocking.

The discount provisions of A2.3.4 are not applicable.

NCNA is subject to the resale regulations outlined in A2.2.5.

\*

B. REGULATIONS (Cont'd)

A directory listing is available with each NCNA. NCNA - Outward Only customers must subscribe to non-published directory listing service and pay the appropriate charge as specified in A5.7.1,D for each service location.

Touch-Tone calling, as specified in A5.4.2, is available on an optional basis.

700 only, 900 only, or 700/900 blocking, as specified in A10.4.3, is available on an optional basis.

Line Side Answer Supervision, as specified in A5.5.3, is available on an optional basis.

1. Responsibility of the Customer

The customer shall be responsible for the installation, operation and maintenance of any pay telephone used in connection with this service.

The customer shall be responsible for payment of all charges associated with this service including applicable toll and FCC charges. Adjustments to the customer's local message and/or toll bill will not be made.

NCNA pay telephones must be registered in compliance with Part 68 of the FCC's Code of Regulation.

NCNA pay telephones must comply with all applicable federal, state and local laws and regulations concerning the use of these telephones by disabled persons and the hearing impaired.

2. Required Operational Characteristics:

- Must be able to access an operator (dial-0) at no charge.
- Must be able to dial 0 (operator) plus the appropriate number of digits for Calling Card, Collect and Third Number calls at no charge.
- Must be able to access 911 Emergency Service, where available, at no charge.

## 5.5.7 INMATE NON-COIN ARRANGEMENT (INA)

\*\*  
\*

## A. DESCRIPTION

Inmate Non-Coin Arrangement (INA) is a central office message rate service available to Public Pay Telephone customers on the premises of city, county, state, and federal correctional facilities who are served by a capable Central Office (CO) where adequate facilities are available. It consists of CO-based control and switching equipment, which when used in connection with customer-provided non-coin/coinless operated pay telephone equipment offers access to the exchange network.

INA is provided for the purpose of originating messages from coinless telephones to numbers in the North American Dialing Plan from authorized correctional facilities.

The type of facilities which connect a customer's Pay Telephone Equipment to the central office are described as follows:

INA - Unrestricted - an arrangement that has no restrictions on either incoming or outgoing calls.

INA - Outward Only - an arrangement that allows only outgoing calls.

INA has an incoming screening arrangement which prevents the completion of collect or third number calls to the INA.

INA - Unrestricted has an outward call blocking arrangement that only allows local messages, direct distance dialed unassisted messages and Collect 0+ calls as defined in this tariff.

INA - Outward Only has an outward call blocking arrangement that only allows Collect 0+ calls as defined in this tariff.

## B. REGULATIONS

Calls to Telephone Company service numbers such as repair service, directory assistance, live operator (0-), Toll Free numbers, 10XXX, and 911 will be blocked from all Inmate Non-Coin Arrangements.

Directory Listings are not provided with this service.

Touch-Tone calling as specified in A5.4.2, is available on an optional basis.

INA is subject to the resale regulations outlined in A2.2.5.

The discount provisions of A2.3.4 are not applicable.

Optional Calling Plans cannot be provided in conjunction with INA.

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT)

1. DESCRIPTION

This service provides for the interconnection of customer owned coin operated telephone instruments to the local telephone exchange network.

2. REGULATIONS

- a. Each COCOT instrument will require a Paystation-COCOT Access Line, as provided by the Telephone Company at the rates and charges indicated in this and other tariffs of the Company.
- b. Each instrument connected to a Paystation - COCOT Access Line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the instrument must permit access to the operator.
- c. Each Paystation-COCOT Access Line is entitled to the same directory listings as those of a Business Dial Tone Line. Private Telephone Number Service (as described in Section 5 of this Tariff) may be provided at no charge upon COCOT subscriber request.

The Telephone Company shall not be liable to the COCOT subscriber for losses or damages arising from such a private telephone number arrangement. The COCOT subscriber indemnifies and saves the Telephone Company harmless from any and all claims arising from such an arrangement.

- d. COCOT Service may be resold or shared in accordance with Section 1 of the Tariff.
- e. Premises Work Charges (Section 22A of this Tariff) apply for each premises visited where customer-provided facilities are connected to Telephone Company facilities and where the service difficulty or trouble is not the result of failure of Telephone Company services or facilities.
- f. If a COCOT subscriber is in violation of this Tariff, the Company will promptly notify the subscriber of the violation and take appropriate action, up to and including the disconnection of service, as deemed necessary.

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT) (Cont'd)

2. REGULATIONS (Cont'd)

- g. The following COCOT Service-Blocking and Screening Options are provided only in conjunction with a Paystation-COCOT Access Line and only where facilities permit:
- (1) Incoming Blocking - prevents incoming calls from being received; only outgoing calls can be placed over the facility.#
  - (2) Outgoing Blocking - restricts all outgoing local and toll calls to operator handled or Calling Card calls.
  - (3) Incoming/Outgoing Screening - prevents the completion of collect or third number calls, when such calls originate within the continental United States and when such calls are processed through the billing verification database. Originating operator handled calls from the COCOT are restricted to collect, third number and calling card only. (C)
- h. Line Side Answer Supervision Option - detects the completion and termination of a call and signals the COCOT equipment to commence and terminate the billing associated with the call. This service will be provided where facilities permit. (C)
- i. A Bell Atlantic-Pennsylvania, Inc. Calling Card may not be utilized in conjunction with a Paystation-COCOT Access Line.
- j. Each Paystation-COCOT Access Line will be assigned a special telephone number which will identify it as a Paystation-COCOT Access Line.
- k. In addition to the foregoing regulations, applicable Pennsylvania Public Utility Commission coin telephone service regulations set forth at 52 Pa. Code Sections 63.91 to 63.98 which pertain to COCOT Service also apply and are hereby incorporated by reference. (C)

3. RATES

- a. Each Paystation-COCOT Access Line will be billed at the same rates and charges as those for an individual Business Dial Tone Line with appropriate Density Cell classification and Measured Local Usage Option (including the Federal Communications Commission Line Cost Charge).

NOTE:

- # The provision of this option requires Pennsylvania Public Utility Commission approval pursuant to 52 Pa. Code Section 63.96. (C)

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT) (Cont'd)

3. RATES (Cont'd)

- b. The connection charge(s) for each Paystation-COCOT Access Line will be the same as that applicable to a Business Dial Tone Line as contained in Section 22C of this Tariff.
- c. A COCOT Service subscriber may request that a Paystation-COCOT Access Line be arranged for Touch-Tone Calling Service where available at the applicable Business Line rate specified in Section 30D of this Tariff.
- d. Local exchange calls placed over a Paystation-COCOT Access Line will be rated at the Measured Local Use rates set forth in Local General Tariffs, Pa. P.U.C.-Nos. 180A, 182, 182A, 185B and 185C.
- e. Message toll service calls placed over a Paystation-COCOT Access Line will be rated the same as Message Toll Service in Pa. P.U.C.-Toll No. 1A Tariff.
- f. The Directory Assistance call allowance in Section 5 of this Tariff does not apply to a Paystation-COCOT Access Line. Directory Assistance Service rates from a coin telephone are specified in Section 5 of this Tariff.

	<u>Monthly Rate</u>	<u>Product Service Charge</u>
g. Paystation-COCOT Access Line, each	(1)	(1)
h. Blocking/Screening Options		
(1) Incoming Blocking, each(3)	\$3.00	\$20.00(2)
(2) Outgoing Blocking, each	3.00	20.00(2)
(3) Incoming/Outgoing Screening, each	5.00	20.00(2)
i. Line Side Answer Supervision*	1.65	20.00(2)

NOTES:

- (1) The Paystation-COCOT Access Line will be rated the same as an individual Business Dial Tone Line with the appropriate Measured Local Usage Option (see 3.a. preceding).
- (2) The Product Service Charge is not applicable when the Blocking and/or Screening and Line Side Answer Supervision options are provided with the initial installation of a Paystation-COCOT Access Line.
- (3) The provision of this option will require Pennsylvania Public Utility Commission approval pursuant to 52 Pa. Code Section 63.96.

\* For a period of ninety (90) days following the effective date of this tariff revision, the Product/Service Charge will not apply.

NETWORK CONTROLLED INMATE LINE

(C)

A. Network Controlled Inmate Line

1. DESCRIPTION

Network Controlled Access Line (NCIL) is an exchange access service for use with coinless telephones provided on the premise of city, county, state and federal correctional institutions where institutionally authorized telephone programs warrant the service.

2. REGULATIONS

- a. NCIL is provided for the purpose of originating messages from coinless inmate telephones to numbers in the Telephone Company's North American Dialing Plan.
  - b. NCIL service may be provisioned as a:
    - (1) Coinless One-Way, Outgoing Mechanized Collect only access line
    - (2) Coinless Two-Way access line
  - c. The following are standard blocking/screening features included in the NCIL:
    - (1) Toll Billing Exception - is an inward screening that disallows the billing of collect or third number calls to the inmate line.
    - (2) Originating Line Number Toll Screening - provides special screening codes to the operator services switch identifying any outward call screening on the line.
    - (3) 900 blocking - prevents an exchange user from accessing 900 service telephone numbers.
    - (4) Audiotex blocking - prevents the completion of outgoing calls placed directly to an Audiotex telephone number.
  - d. Calls to Telephone Company numbers such as repair service, directory assistance, live operator (0-), Toll Free numbers, 10XXX and public emergency service numbers such as 911 will be blocked from all Network Controlled Inmate Lines.
  - e. Directory listings are not provided with this service.
  - f. NCIL may be resold or shared in accordance with Section 1 of this Tariff.
3. RESPONSIBILITY OF THE CUSTOMER
- a. The customer shall be responsible for the installation, operation and maintenance of any customer provided coinless telephone equipment used in conjunction with this service.

NETWORK CONTROLLED INMATE LINE

(C)

A. Network Controlled Inmate Line (Cont'd)

3. RESPONSIBILITY OF THE CUSTOMER (Cont'd)

- b. Inmate coinless telephones must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind a FCC registered coupler.
- c. The customer shall be responsible for payment of all charges associated with this service.
- d. Failure of the customer to comply with the provisions of this tariff may result in the suspension or disconnection of the customer's service.

4. RATES

- a. The connection charge(s) for each NCIL are specified in Section 22C of this tariff.
- b. Touch-Tone Calling service, is available on an optional basis at no additional charge.
- c. Local exchange calls placed over a Coinless Two-Way NCIL access line will be rated at the Measured Local Use rates set in Local General Tariffs Pa. P.U.C.-Nos. 180A, 182, 182A, 185B and 185C.
- d. Message toll service placed over a Coinless Two-Way NCIL access line will be rated as Message Toll Service in Pa. P.U.C.-Toll No. 1A, Section 2 Tariff.

PAY TELEPHONE LINES

ILLUSTRATIVE TARIFF

(C)

A. DESCRIPTION

A Pay Telephone Line (PTL) is an individual exchange dial tone line for use by pay phone service providers, location owners and interexchange carriers to connect coin, coinless or combination coin/coinless pay telephones to the Telephone Company's network.

B. REGULATIONS

1. TYPES OF PTL

Two types of PTL are available: Network Controlled Coin Line (NCCL) and Network Controlled Non-Coin Line (NCNL).

a. Network Controlled Coin Line

A NCCL is an individual measured exchange line for use with coin operated pay telephones.\*

The NCCL is equipped with network coin control capability which includes coin collect and return features, call rating capabilities and unique operator services which allow an end user to signal the operator during a call.

b. Network Controlled Non-Coin Line

A NCNL is an individual exchange dial tone line for use with non-coin operated telephones, including card reader or credit card telephones. The NCNL prevents the completion of chargeable direct dialed local or chargeable direct dialed toll calls without operator intervention.

Line Side Answer Supervision may also be provided as an optional feature for NCNL, subject to the regulations and rates specified in Section 18A of this Tariff.

2. PTL may be provisioned as a Two-way or One-way, Outgoing Only exchange dial tone line.

- \* Local messages will be billed on a flat local usage basis until a measured local usage measured rate exchange line for coin operated pay telephones is technically feasible. At that time all NCCL exchange lines will be converted to a measured local usage line.

PAY TELEPHONE LINES

(C)

B. REGULATIONS (Cont'd)

3. The PTL exchange line prevents the completion of incoming collect or third number calls, when such calls originate within the continental United States and when such calls are processed through the billing verification database. Outgoing operator-handled calls from the PTL are restricted to collect, third number and calling card only.
4. Directory Listings are not available with the One-way, Outgoing Only NCCL or One-way, Outgoing Only NCNL.
5. Directory Listings are available with the Two-way NCCL and the Two-way NCNL subject to the regulations applicable to listings for individual line business service. Private Telephone Number Service as described in Section 5 of this Tariff may be provided at no charge upon the PTL subscriber's request.

The Telephone Company shall not be liable to the PTL subscriber for losses or damages arising from such a private telephone number arrangement. The PTL subscriber indemnifies and saves the Telephone Company harmless from any and all claims arising from such an arrangement.

6. The following options are available for NCCL and NCNL exchange lines where facilities permit:
  - a. Audiotex Blocking - provides the ability to block origination of direct dialed Audiotex 976 calls subject to regulations and charges specified in Section 36A of this Tariff.
  - b. 900 blocking - provides the ability to block origination of direct dialed 900 calls subject to regulations and charges rates contained in Section 22C of this Tariff.
7. Pay telephones connected to a NCCL must be registered in compliance with Part 68 of the FCC's Rules and Regulations.
8. Each pay telephone connected to a PTL exchange line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the pay telephone must permit access to the operator.
9. PTL service may be resold or shared in accordance with Section 1 of this Tariff.
10. Premises Work Charges specified in Section 22A of this Tariff apply for each premises visited where customer-provided equipment is connected to Telephone Company facilities and where the service difficulty or trouble is not the result or failure of Telephone Company services or facilities.
11. Failure of the subscriber to comply with the provisions of this Tariff may result in the suspension or disconnection of the subscriber's service.

PAY TELEPHONE LINES

(C)

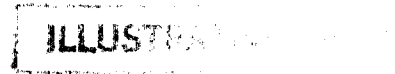

B. REGULATIONS (Cont'd)

12. The PTL subscriber shall be responsible for the installation, operation and maintenance of any pay phone used in connection with this service.
13. The PTL subscriber shall be responsible for payment of all charges associated with this service, including applicable local, toll and F.C.C. charges.

C. RATES

1. The connection charge(s) for each NCCL and NCNL are specified in Section 22C of this Tariff.
2. Each PTL dial tone line will be billed at the same rates and charges as those for an individual Business Dial Tone Line with appropriate Density Cell classification and measured local usage option specified in Pa. P.U.C.-Nos. 180A, 182, 182A, 185B and 185C (including the Federal Communications Subscriber Line Charge).
3. All sent-paid intraLATA and corridor toll calls will be handled by the Telephone Company and charged at the appropriate message toll rate specified in Pa. P.U.C.-Toll No. 1A, Section 3 Tariff and FCC Nos. 5 and 8 Tariffs.  
  
Any sent-paid intraLATA and corridor toll call that is not rated by the Telephone Company will be rated the same as Message Toll Service in Pa. P.U.C.-Toll No. 1A, Section 2 and F.C.C. Nos. 5 and 8.
4. A PTL subscriber may request that a PTL dial tone line be arranged for Touch-Tone Calling Service, where available, at the applicable rate specified in Section 30D of this Tariff.
5. Directory Assistance Service calls placed over the PTL dial tone lines will be billed as specified in Section 5 of this Tariff.
6. The Directory Assistance call allowance in Section 5 of this Tariff does not apply to a PTL exchange line.

PAY TELEPHONE LINES

(C)

C. RATES (Cont'd)

7. Rates and Charges	<u>Product/Service Charge</u>	<u>Monthly Rate</u>
a. NCCL, each		
One-way, Outgoing Only	-	\$ 9.00 (1) (2)
Two-way Service	-	6.00 (1) (2)
b. NCNL, each		
One-way, Outgoing Only	-	11.00 (2)
Two-way Service	-	8.00 (2)

NOTES:

- (1) The measured local usage rates specified in Pa. P.U.C. Nos. 180A, 182, 182A, 185B and 185C will apply when a measured line for coin operated telephones is technically feasible. In the interim, an unlimited local usage monthly charge of \$15.95 will apply for the NCCL - One-way, Outgoing Only and NCCL - Two-way services.
- (2) The recurring monthly rate is in addition to the appropriate Dial Tone Line Rate (see C.2 preceding).

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT)

1. DESCRIPTION

Customer Owned Coin Operated Telephone Service (COCOT) is a type of business individual line, message or measured rated, exchange service designed for use with customer-provided coin operated telephones under the following regulations, rates and charges. (N)

2. REGULATIONS

In addition to the Commission's rules and regulations governing service provided by customer owned coin operated telephones as set forth in P.S.C. Regulation Docket No. 12, the following Telephone Company regulations and rates apply:

- a. Each Customer Owned Coin Operated Telephone will require one Paystation-COCOT Access Line, as provided by the Telephone Company at the rates and charges indicated in this and other Tariffs of the Telephone Company. Extensions must be configured and wired so that only one telephone will operate on the line at one time. (T) (N)
- b. The COCOT Service subscriber is considered as the Customer of Record and is responsible for all rates and charges associated with the service, including but not limited to the installation rates and recurring charges for the Paystation-COCOT Access Line, COCOT Service-Blocking, Screening and Billing Options, directory assistance charges, message toll charges and local usage charges. The COCOT Service subscriber shall not be responsible for message toll charges for improperly or erroneously accepted third number billed or collect calls if the Paystation-COCOT Access Line is arranged with the COCOT Service Incoming/Outgoing Screening Option. (T)
- c. COCOT Service may be resold or shared subject to the provisions set forth in P.S.C. Regulation Docket No. 12 and Section 1 of this Tariff. (T)
- d. Customer Owned Coin Operated Telephones must comply with all applicable federal, state and local laws and regulations concerning use by the disabled persons and the hearing disabled. (N)
- e. Premises Work Charges (Section 20B of the Guide for Detariffed Services - Competitive) apply for each premises visited where customer-provided facilities are connected to Telephone Company facilities and where the service difficulty or trouble is not the result of failure of Telephone Company services or facilities. (T)
- f. If a COCOT subscriber is in violation of this Tariff, the Telephone Company will promptly notify the subscriber of the violation and take appropriate action, up to and including the disconnection of service, as deemed necessary. (T)

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT) (Cont'd)

2. REGULATIONS (Cont'd)

- g. The following COCOT Service-Blocking, Screening and Billing Options are provided only in conjunction with a Paystation-COCOT Access Line and only where facilities permit: (T)
- (1) Incoming Blocking - prevents incoming calls from being received; only outgoing calls can be placed over the facility.
  - (2) Outgoing Blocking - restricts all outgoing local and toll calls to operator-handled or Calling Card calls. (T)
  - (3) Incoming/Outgoing Screening - prevents the completion of collect or third number calls, when such calls originate within the continental United States and when such calls are processed through the national database known as Billing Validation Application (BVA) or its equivalent. Originated operator-handled calls from the COCOT are restricted to collect, third number and calling card calls only. (N)
  - (4) Line Side Answer Supervision - sends a signal to the network interface associated with the customer-provided pay telephone when the Telephone Company's facilities detect that the called party's line goes off-hook or on-hook. This service is available where facilities permit.

3. RATES

- a. Each Paystation-COCOT Access Line will be billed at the same rates and charges as those for an individual Business Dial Tone Line (including the Federal Communications Commission Line Cost Charge) and Measured Local Usage Option as contained in P.S.C.-Del.-No. 3A Tariff.
- b. The connection charge(s) for each Paystation-COCOT Access Line will be the same as that applicable to a Business Dial Tone Line as contained in Section 20C of this Tariff.
- c. A COCOT Service subscriber may request that a Paystation-COCOT Access Line be arranged for Touch-Tone Calling Service where available at the applicable Business Line rate specified in Section 30C of this Tariff.
- d. Local exchange calls placed over a Paystation-COCOT Access Line will be rated at the Measured Local Use rates set forth in P.S.C.-Del.-No. 3A Tariff.
- e. Message toll service calls placed over a Paystation-COCOT Access Line will be rated at the same Message Toll Service rates set forth in Section 27 of the Guide For Detariffed Services - Competitive. (T)

CUSTOMER OWNED COIN OPERATED TELEPHONE SERVICE

A. Customer Owned Coin Operated Telephone Service (COCOT) (Cont'd)

g. Paystation-COCOT Access Line, each	(1)	(1)	
h. Blocking/Screening Options			
(1) Incoming Blocking, each	\$3.00	\$24.97 (2)	
(2) Outgoing Blocking, each	3.00	24.97 (2)	
(3) Incoming/Outgoing Screening, each	4.99	24.97 (2)	
(4) Line Side Answer Supervision, each	1.65	25.00 (3)	
i. Private Telephone Number Service (as described in Section 5 of this Tariff) may be provided at no charge upon COCOT subscriber request.			(N) 

NOTES:

- (1) The Paystation-COCOT Access Line will be rated the same as an individual Business Dial Tone Line and the appropriate Measured Local Usage Package of the customer's choice (see 3.a. preceding).
- (2) This Product Service Charge is not applicable when the Blocking and/or Screening features and/or the Line Side Answer Supervision Option are provided with the initial installation of a Paystation-COCOT Access Line.

(D)

NETWORK CONTROLLED INMATE LINE

(N)

A. DESCRIPTION

Network Controlled Access Line (NCIL) is a switched access service for use with coinless telephones provided on the premise of city, county, state and federal prisons where institutionally authorized telephone programs warrant the service.

B. REGULATIONS

1. NCIL is provided for the purpose of originating messages from coinless inmate telephones to numbers in the Telephone Company's North American Dialing Plan.
2. NCIL service may be provisioned as a:
  - a. Coinless One-Way, Outgoing Mechanized Collect Only access line
  - b. Coinless Two-Way access line
3. The following are standard blocking/screening features included in the NCIL:
  - a. Toll Billing Exception - is an inward screening that disallows the billing of collect or third number calls to the inmate line.
  - b. Originating Line Number Toll Screening - provides special screening codes to the operator services switch identifying any outward call screening on the line.
  - c. 900 blocking - prevents an exchange user from accessing 900 service telephone numbers.
4. Calls to Telephone Company numbers such as repair service, directory assistance, live operator (0-) Toll Free numbers, 10XXX and public emergency service numbers such as 911 will be blocked from all Network Controlled Inmate Lines.
5. Directory listings are not available with this service.
6. NCIL may be resold or shared as specified by the provisions set forth in P.S.C. Regulation Docket No. 12 and Section 1 of this Tariff.

NETWORK CONTROLLED INMATE LINE

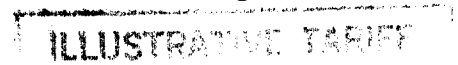

(N)

C. RATES

1. The connection charge(s) for each NCIL will be the same as that applicable to business service as contained in Section 20C of this tariff.
2. Local Exchange calls placed over a Coinless Two-Way NCIL access line will be rated at the Measured Local Use rates set forth in P.S.C.-Del.-No. 3A Tariff.
3. Message Toll Service placed over a Coinless Two-Way access line will be rated at the same Message Toll Service rates set forth in Section 27 of the Guide for Detariffed Services - Competitive.
4. Touch-Tone calling, as specified in Section 30B of this tariff for business service, is available on an optional basis.

	<u>Monthly Rate</u>	<u>USOC</u>
5. NCIL - Coinless Access Line, each		
a. One-Way, Outgoing only	\$30.00	1UO
b. Two-Way Service	28.00	1UU

PAY TELEPHONE LINES (PTL)

(N)

A. DESCRIPTION

Pay Telephone lines (PTL) are individual dial tone lines for use by payphone service providers, location owners and interexchange carriers to connect coin, coinless or combination coin/coinless pay telephones to the Telephone Company's network.

B. REGULATIONS

(M)

In addition to the Commission's rules and regulations governing service provided by customer owned coin operated telephones set forth in P.S.C. Regulation Docket No. 12, the following Telephone Company regulations and rates apply:

1. TYPES OF PTL

(N)

Four types of PTL are available: Network Controlled Coin Line (NCCL), Network Controlled Non-Coin Line (NCNL), Network Controlled Inmate Line (NCIL) and Customer Owned Coin Telephone Service (COCOT).

a. Network Controlled Coin Line (NCCL)

The NCCL is an individual measured rate dial tone line for use with coin operated pay telephones.\*

The NCCL is equipped with network coin control capability which includes coin collect and return features, call rating capabilities and unique operator services which allow an end user to signal the operator during a call.

b. Network Controlled Non-Coin Line (NCNL)

The NCNL is an individual dial tone line for use with non-coin telephones, including card reader or credit card telephones. The NCNL line prevents the completion of chargeable direct dialed local or chargeable direct dialed toll calls without operator intervention.

c. Network Controlled Inmate Line (NCIL)

(M)

The NCIL is an individual dial tone line for use with coinless telephones provided on the premise of city, county, state and federal prisons where institutionally authorized telephone programs warrant the service.

(T)

NCIL is provided for the purpose of originating messages from coinless inmate telephones to numbers in the Telephone Company's North American Dialing Plan.

Note:

- \* Local messages will be billed on a flat rate local usage basis until a measured local usage line for coin operated pay telephones is technically feasible. At that time, all NCCL exchange lines will be converted to measured local usage lines.
